

# Envision the Future

**Purpose:** This project is specifically designed to solicit opinion, perspective, and advice from students attending Stephenville ISD. A student voice is critical.

**Development:** Submissions are to be a digital media product 3—5 minutes in length. Products shall be well-developed and appropriate to share to a variety of audiences including, but not limited to, community organizations, school groups, SISD Board of Trustees, service organizations, and campus teams.

**Format:** Submissions shall be in a Windows compatible digital format.

**Copyright:** Submissions shall be original. Copyrighted resources shall be authorized and cited.

**Credit:** This is not a contest, but rather an opportunity for SHS students to become a part of the movement of their school toward building a culture of 21st Century processes. Community service hours shall be awarded to each participant as recommended by NHS teacher sponsors.

**Dates:** Proposal is introduced February 20, 2012 and available for initial presentation to NHS peers March 20, 2012.

**Technical Assistance:** SISD Technology staff are available to field questions, provide clarification in the use of some software programming, equipment check-out and/or facilities use. Appointments or scheduling is required and can be arranged by contacting Karol Howell, Chief Technology Officer, SISD at 552.6544 or [karol.howell@sville.us](mailto:karol.howell@sville.us).

## Project #1: Design the perfect 21st Century School

If you had the ability to redesign public education in Stephenville, Texas what would it look like?

- Where would the learning take place and in what form?
- How would students share what they learn? With whom?
- How would students' work be evaluated? By whom? How would you demonstrate your learning?
- What tools would be used and how would learning be communicated?
- What would be the teachers' role? Students' role?
- How would the learning connect to real life?

## Project #2: Envision the perfect 21st Century Teacher

Envision the 21st Century teacher and communicate your vision. What words.....

attributes.....

actions.....

characteristics...

would be associated with this individual? What behaviors would you expect? What kind of teachers would you need to facilitate learning in the 21st Century classroom?

SISD Technology

NOTE: PROJECTS MAY BE MERGED TO MEET AUDIENCE EXPECTATIONS/TIME CONSTRAINTS. CONTENT IS OF PRIMARY IMPORTANCE. ALL SUBMISSIONS SHOULD BE IN DIGITAL FORMAT AND DEVELOPED IN A RESPECTFUL NATURE AND TONE.
